INMODE

BODYFX

A superior non-invasive treatment to reduce the appearance of cellulite on the abdomen, hips, buttocks, thighs and other areas that require tissue remodeling.

MINIFX

Uses BodyFX technology, with a smaller treatment head, to address problematic adipose tissue in smaller areas like the neck, arms, and knees.

PLUS

An auto-adjusting thermal skin technology that delivers tissue remodeling on larger body areas, comfortably and pain-free.

CONTOURA

THE ULTIMATE NON-INVASIVE REMODELING SYSTEM

CONTOURA DELIVERS A COMPLETE BODY-FOCUSED SOLUTION THAT CAN BE UTILIZED FOR BODY, CELLULITE, AND SKIN REMODELING. FULL TREATMENTS WITHOUT INCISIONS, SCARS, OR DOWNTIME.

BODY REMODELING & CELLULITE TREATMENT

WHAT IS BODYFX?

BodyFX is a non-invasive radiofrequency treatment that minimizes the appearance of cellulite. It is the perfect non-surgical alternative to remodel tissue and cellulite.

WHAT AREAS CAN BE TREATED?

BodyFX can treat a variety of areas on the body such as the arms, abdomen, back, and buttocks.

HOW MANY SESSIONS ARE RECOMMENDED?

BodyFX treatments are customized and tailored to address your specific needs. It is recommended that weekly sessions are performed over an eight week period. Gradual improvements can be seen following the first few treatments.

ADVANCED BODY REMODELING

PLUS

WHAT IS PLUS?

Plus uses thermal energy to effectively treat and improve the appearance of tissue. Plus technology with built-in temperature controls, allow the device to reach clinically-proven optimal temperatures for pain-free, non-invasive treatment of larger body areas.

WHAT AREAS CAN BE TREATED?

Plus can be used on parts of the body that may need remodeling after the effects of weight gain/loss or general aging. The most common areas of treatment include the abdomen, the arms (bat wings), inner thighs, outer thighs, back fat and knees.

HOW MANY SESSIONS ARE RECOMMENDED?

Weekly sessions are recommended over a six to eight week period. Scheduling should be based on a pre-evaluation. Patients will see a gradual improvement in their skin following a series of treatments.

WHAT PATIENTS ARE SAYING ABOUT CONTOURA

Hear the difference Contoura procedures are making for these real patients

I lost inches in my thighs and my body looks and feels tighter. I would recommend this treatment to anyone who wants to get rid of that little extra fat they are carrying.

- SUSAN | BODYFX

I had a few deep dimples on my thighs that were bothering me when I wore a bikini or short shorts. MiniFX was a very comfortable, easy treatment that gave me my confidence back. Now the back of my thighs are very smooth and match the rest of my body! I couldn't be happier with the results.

- JOANNA | MINIFX

I had some annoying and ugly sagging skin just above my knees. I work out a lot and just had no other way to get the skin back to where I needed it to go, the Plus got me back in summer shorts again.

- KAYLA | PLUS
